# When treating hoof problems, you'd better reach for THE SAUCE!

Based on the popular Sore No More herbal liniment, The Sauce combines iodine, arnica, and other herbs in a witch hazel base. Sugardine is an old time remedy of mixing iodine with sugar to form a paste used to spread on the soles of hooves to soothe inflamed tissue. Add Sore No More into the equation and we have one of the most effective Sugardine combinations yet.

## SUGARDINE RECIPE

- Have a paper/plastic cup ready
- Add 1/2 cup of sugar
- Drizzle The Sauce in
- Stir until the mixture thickens into a peanut butter-like substance
- If mixture becomes too runny, add more sugar

Paint The Sauce on straight for scratches, thrush and inflammation or combine with sugar to help combat the toughest hoof problems. You no longer have to use harsh chemicals for hoof problems, just reach for The Sauce!

Highly recommended by top farriers and veterinarians worldwide. It's a super step forward in safe, herbal hoof-care for horses!
